CLASSY HOME

2030X raised and fielded panel detail with curved beading in Walnut.

There are designs that are far from going out of style, winners over time. The classic values a reference of beauty is reflected in the curved shapes and in a style that has become universal. Today the star woods are walnut and oak. They combine well with all type of decorations, both classical and contemporary.

If you opt for a more traditional style we recommend the Curved model handle in Polished Brass. If, on the other hand, you are looking for a fresh and modern style, choose a Plica model handle in Satin Chrome or Graphite finish.

GOLD

1 CLASSIC HANDLES
From the classic handles, stained finishes match well with polished brass. This is the most in demand for this style since traditionally it means elegance.

2 IN TREND HANDLES
However, if we use gold in contemporary handles, these are fully integrated into the classic deco and give a sophisticated touch.

3 HINGES
The standard hinges can match handles, with a choice of different finishes. If you want a more sleek look use concealed hinge.

4 DOOR LATCH
With or without bulb, or magnetic latch, you can also find them in brass, stainless steel, bright chrome ...

INTERIOR

INTERIOR DOORS

SOLID

More than 200 models: veneers, lacquers or stains.
The quintessence of swing interior doors

GLAZED

One, two or six glass panes. Always matching the model. Also, various glass designs and finishes for each model.

DOUBLE

For great stately rooms. Double doors are special for the magnificence provided to the spaces where they are located.

GLAZED DOUBLE

Apart from elegance and grandiosity, double glazed doors provide brightness in spaces. Find your designer glazed doors.

INTERNAL SLIDING

A versatile sliding door: it does not take up any space on the wall and allows for any decoration close to the door.

EXTERNAL SLIDING

With concealed ironmongery or top rail, both options are specially required for their designer and minimalist look.

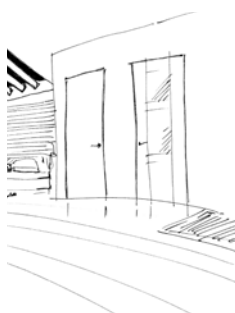

DOUBLE INTERNAL SLIDING

To join or divide rooms. Double sliding doors are perfect for dressing rooms or to combine kitchen and living room and create an open space.

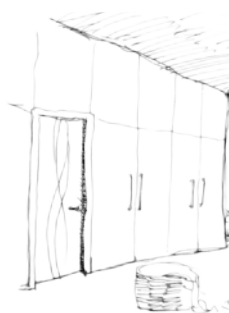

DOUBLE EXTERNAL SLIDING

Functional as the internal and with no site installation required. Concealed ironmongery adds a contemporary touch.

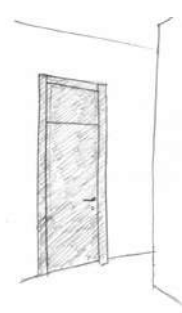

HIDDEN FRAME DOOR

Flush with panels or with wall (with concealed frame), as shown in the image. Complete integration of the door in to the architecture.

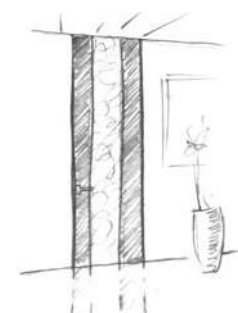

PANELLING

Flush with panel door can also be included with a frame and be combined with wardrobes, panelling and door in the same design.

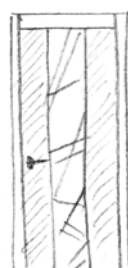

TOP PANELS

To provide rooms with height, the best option is a fixed top panel in the upper part of the door.

FLOOR TO CEILING

By maximizing the idea of height, floor to ceiling doors can reach up to 3 metres high.

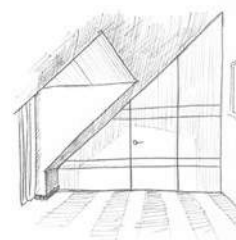

VT GLAZED

VT glazed door integrates the glass in the door structure with an appealing design by offering a greater brightness to every room.

THICK WALLS COVERING

Refurbishment oriented, thick walls can now be covered with the same design and finish of the door.

SPECIAL FORMATS

To make the most of spaces, adapt the door to the area. Ideas? Create a small room under the stairs

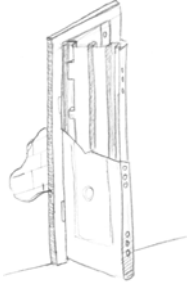

DOUBLE SWING DOORS

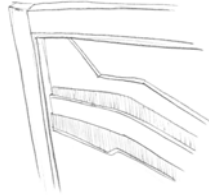

Double swing hinges are perfect for areas where our hands are busy to open the doors: kitchens or hospital rooms.

TECHNICAL DOORS

TECHNICAL

**ARMOURED**

Security Grade 3.
Resistance to attack up to 20min and available in 30 and 60min fire resistant and acoustic up to 46dB

**REINFORCED**

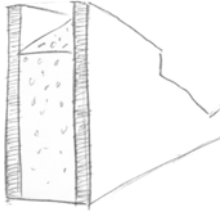

4 anti-lift off hinges and steel sheet(s) in the core. Anti-bumping cylinder and multi-point lock included.

**ENTRANCE**

Available models to match your interior doors. Designed with a greater thickness with all the necessary accessories for installation.

**LEADED**

X Rays. Lead shielding in door leaf, frame and one face architrave.

**INSULATING**

Insulating door leaf core that reduces heat loss in up to 40%, additionally, perimeter sealing accessories. For an efficient home

**ACOUSTIC**

Protect yourself from noise, create cozy rooms free of any nuisance.
Include acoustic insulators as the gum seal or the drop down seal. Easy and effective!

**FIRE RESISTANT**

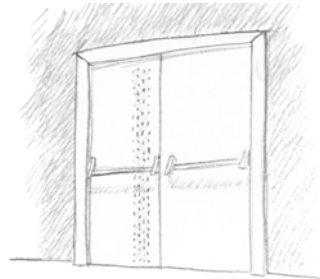

Most of SANRAFAEL models can be manufactured with fire resistance 30 and 60 minutes. 90 minutes fire resistance available in flush doors.

**ACOUSTIC + FIRE RESISTANT**

You can make your door to stand 90 minutes fire resistance and 34dB protection. Or 30 minutes fire resistance and 41dB protection. You choose.

**Communal
DOORS FOR
HOTEL**

Special to create familiar areas in hotels. Save by using just one frame.

**EMERGENCY DOORS**

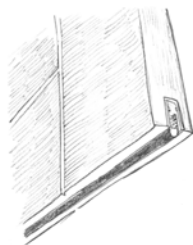

Combine FD doors with emergency exits. We include anti panic bars in both single and double doors.

**VENTILATION SYSTEMS**

Traditional or integrated in the door, integrated to solve ventilation in toilets, kitchens or server rooms.

**AERATION SYSTEMS**

AIRDOOR system allows the required circulation of the air, leaving the frame concealed and maintaining the standard dimensions of the door set.

**AIRTIGHT**

Allows the total sealing of the edges of the door with frame and floor, reducing noise, odours and smoke.

**INTERIOR AIR QUALITY**

Doors with minimum VOC emissions, certified by A+ classification.

**ANTIBACTERIAL FINISH**

Both in handles and doors, antibacterial finish available to give you peace of mind and avoid illnesses.

**DOUBLE SIDED DOORS, TWO
DESIGNS IN ONE DOOR**

Matching entrance and interior doors in your home, a demanding design sometimes requires an option to make everything match perfectly.

Internal sliding

External sliding

Integrated Sliding doors

Sliding doors fulfil the practical function of making the most of spaces. This is not, however, the only reason why our customers choose them.

Sometimes, a simple aesthetic question is solved with a sliding door, obtaining distinguishing and modern spaces.

What are the benefits?

1. SPACE SAVING

Most evident benefit. Save 1 m² walk in space per door.

2. JOIN SPACES

By leaving them open, especially double doors, they can be used to join, for example, a kitchen and a living room.

3. INTEGRATION

In the wall or in a panelling with the same finish, forming the perfect combination.

4. VERSATILITY

Space saving in toilets and small rooms is important, while it also works perfectly as a naturally creative option. Some being changeable and adjustable.

5. VARIETY

Apart from type variety you have most of our 200 SANRAFAEL models available as sliding doors.

Typology

INTERNAL SLIDING

Concealed inside the wall when opened, thus making the most of space.

EXTERNAL SLIDING

Simple and cost effective. No site work needed.

CONCEALED SLIDING

Also external but with concealed ironmongery. Pure design.

Concealed sliding

Concealed glazed sliding

Wardrobes

Storage Wardrobes and walk in wardrobes

Cozy, confidential dressing room

Walk in wardrobes integrate perfectly in rooms making everything match in a unified magic area. A cherished space 100% devoted to you.

What to consider?

1. AVAILABLE SPACE
2. DESIRED PRIVACY
3. EASE OF USE
4. TYPE OF STORAGE
5. CLEAN open space

Which are my options?

WARDROBES TYPOLOGY

- 1. WARDROBES**
 Make the most of internal spaces
 Full visibility when doors opened
 Comfort of use
 Easy opening
 Clean interiors
 Cost effective
- 2. SLIDING WARDROBES**
 With or without aluminium profiles, totally clean.
 Option for two, three rails... or completely levelled
 Movement of doors needed to open
 No front opening space needed
- 3. WALK IN WARDROBES**
 Modular system, always adjustable on fitted wardrobes
 For private or open spaces
 Less recommended for its cleaning and protection of clothing.

OPTIONS TO IMPROVE STORAGE

Include trouser rails, shoe and tie racks, mirrors.. this will give you extra storage and ease of use.

Tailored dressing room

Corner Wardrobes

THE DOOR GUIDE

The Door Guide project appeared in 2015 to meet the market needs to compile all technical solutions in one document.

It is an important document to understand each solution, from a functional, decorative and useful point of view.

Any interior design project is achievable with this Guide, permitting

to solve all technical questions around security doors, health, decoration, energetic efficiency or both, necessary and exciting eco-friendly solutions.

Ask our official distributors about any solution, you will be surprised!

FINISHES BOX

Ask our official distributors about all our finishes available for natural, engineered or stained veneers and lacquers.

We certainly offer the greatest range of finishes. If you are looking for a particular one, please let us know.

REPAIR KIT

A door will be with us for a long time.

It will experience scratches, hits etc., that is why we suggest the solution of a solid door, stronger and with top quality lacquers and varnishes like those used by Sanrafael Doors.

Additionally, by having kids around or moving furniture, the door can suffer hits, especially on the edges. It is necessary and recommended a maintenance to prevent those damage.

Choose standard guaranteed finishes, with hardness, anti scratching, antiyellowing, colour uniformity and green properties.

Please note that a natural product, due to the richness of the wood, may change tonality and pattern from one sample or door to another. Ultimately, natural wood is unique in its beauty.

Finishes

Sanrafael

NATURAL WOOD

Wood is a benchmark in interior design and decoration: a green material with a high decorative capacity, as well as versatile and long lasting. Natural wood is an excellent thermal and acoustic insulator and offers greater fire resistance than other synthetic materials. Reusable and recyclable and for us, most of our veneers come from sustainable supply sources. Also, we finish our veneers with protecting water-based green lacquers.

STAINED VENEER

STAINS PROPERTIES SANRAFAEL

When a stain is applied to a veneer, its tonality changes but keeping its natural grain. During the process, the colour penetrates through the grain, changing its colour, while it preserves the natural beauty of the grain.

1. Colour fixation
2. Colour uniformity
3. Veneer protection
4. Reduces veneer ageing
5. Minimizes veneer oxidation
6. More natural open grain texture

LACQUERS

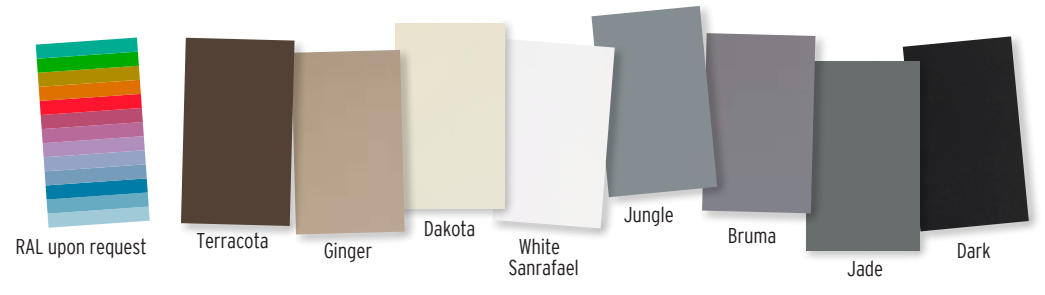

Eco

LACQUERS

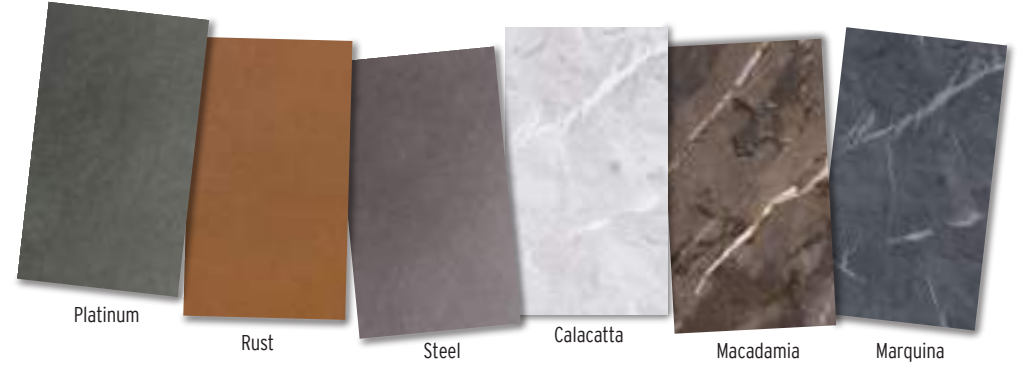

SANRAFAEL has a range of trends that is renovated yearly. Lacquers give our door a shiny, smooth and uniform finish, that remains so with time. Thanks to our drying process, we avoid dust particles from adhering,

obtaining the cleanest of finishes.

SANRAFAEL lacquers are green paints of the highest quality which avoid issues like lack of adherence, clumpy effect and yellowing with time.

SPECIAL FINISHES

The Handle

The icing on the cake

The handle plays a relevant role to complete the image, benefits and functionality of your door. In Sanrafael Doors, designers and technicians have developed a great aesthetic variety for you to complete the door your way.

To help you, we have classified our handles by styles. In every style, the technical features of the handles are distinguished by class.

Maintenance Guide

Model **DUNE**Model **AINA****1.** Environmental temperature

Keep in places where there are no great temperature changes

2. Sudden changes in temperature

Keep out of areas where there are hot or cold objects such as radiators, fires or cold generating devices.

3. Timber Care

- Do not use detergents or abrasive powders
- It is recommended to clean immediately any liquid, drawn up with an absorbent cloth.
- It is recommended to clean in the direction of the grain using soapy water, if possible lukewarm, with a sponge to remove the remaining residues.
- Apply a maintenance oil to minimize the classic movements of the wood.

Measurements

Although there are unique natural pieces, tables can be made in special measures. Ask our distributor.

APPEARANCES OF CRACKS

Even though this item has been properly dried, there are humidity changes from the installation site that can cause cracks or slight deformations **this is a result of the natural acclimatization that occurs when**

hygroscopic furniture has been made from solid natural wood.

Canvas for walls

The perfect complement

There are many types of existing wallpapers but given that it acquires a great prominence in the room, it will need to be cleaned periodically and can suffer from shock. We have selected products of total quality, with great personality and maximum guarantees.

The work we have focused on is exclusive designs with lines

The decoration in the home has put decorative paper in trend.

Tropical, Floral, Vintage ... helping to create special spaces that we never get tired of enjoying.

We offer 3 extra finishes, all of them with a quality superior to the standard of the market, metallic effect (very spectacular in light), with acoustic properties or with greater hardness for more aggressive environments with the wall.

STANDARD

For walls and ceilings in normal conditions. With ecological inks.

METAL

Shimmering, with fantastic reflections, silky and natural. Fashion and design.

Acoustic

Environmental welfare
Improves the acoustic quality of the residential environment.

HARD

Without any fear when coming in to contact with water, steam or humidity. High resistant

Glass **Giving character to your door**

The glass can be made with transparent, semi-matt, tempered or tempered finish, it is optionally fully assembled, which saves time, handling and damage of the door.

The glass door is an essential element, especially in the kitchen and living room. They take on a greater role when they are double doors where the passage of light makes any room revived.

Our team has developed a very complete glass collection, special for each door design with Geometric, Vintage, Textures or Natural themes.

We recommend you ask for the VT glass door for the chosen model, combining design and safety with the use of tempered glass.

We make any type of design, in case you want to make any customization do not hesitate to tell us.
