## Nature Inspired

The 984 model has great popularity because it has the magic of giving personality to any interior where it is used. Organic forms that are inspired by vegetation.

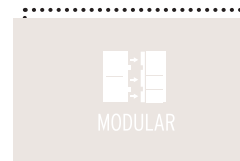

You can organize the dressing room with the distribution that best suits you. The Dakota lacquered combination for doors and panels together with the chocolate stain finish of the walk-in modules make for a very cozy space.

## MODULAR WARDROBES

With a simple anchoring system you can vary the position of drawers and shelves as many times as you want, to adapt to your changing habits. Continue your wall panels with a rack system dressing, and create a wall of the extension you want to achieve a total integration between the dressing room, the paneled wall and your door.

Expand your dressing room through modules to fill the wall or space you need with a simple system of vertical guides and panels.

You can change each complement, drawer or shelf because you have a rack system that allows you to reposition at any time.

The maxim of SANRAFAEL is to create a coherent and integral set. We make it easy for you to create a collection with dressing room, door, window, wardrobe ...

# DARE TO?

The integration of the cabinet with the door is a trend. Choose the option of a spider cabinet, without profiles, fully integrated.

When it comes to equipping a room where we are going to spend hours, aesthetics and the correct functioning of all its elements are very important. The double doors, in addition to facilitating entry and exit of furniture give a feeling of space. The 991 model has sinuous line design that awakens the imagination to accompany them with a dynamic and cheerful decoration. Sanrafael wallpaper collection will open your imagination to different styles and environments.

Planning the design of your home can be simple. We propose to you a door that could look classic, really timeless, adapted through a top panel with the same design, at the height of the room to achieve greater verticality. The white lacquered finish will expand the space of your home. Look for elegance, dynamism or serenity with colour.

If you have high ceilings or light in your home, do not miss the possibility of incorporating beams with the same finish as the door or with a complementary finish to achieve a warmer look. Any natural wood perfectly combines with white lacquer.

# A house in the Hamptons

Reflects a casual style - elegant without effort with open spaces that provide fluidity. The colour white as the predominant tone and a palette of colors that include neutral tones bring freshness to the rooms at any time of the year.

The use of natural materials such as wood, rustic pieces combined with others of a classic French style air give the house a harmonious beauty full of elegance and decorative balance.

SANRAFAEL RECOMMENDATIONS

WALL COVERING

The set of frames, architraves or paneling and lining of the extentions is the perfect solution to get to dress the door, 100% getting elegance and distinction.

# A giant in hight.

SANRAFAEL RECOMMENDATIONS

# ARCHITRAVE

The most classic option, which can co-exist perfectly with neoclassical, traditional or classic furniture.

Elegant and stately, this architrave turns the door into an admirable element, increasing its presence.

A classic completely renovated. Inspired in Fifth Avenue, this straight line architrave is simple and refined.

Choose an elegant architrave classic groove makes it unique.

Let's break boundaries of the door open wide and with high special size, solutions to cover walls, adaptability and design in one.

Make your house look bigger. With enough height to the ceiling, you can install lacquered doors up to three metres high! And if your walls are wide, the best option to dress them is a extension panel, which will match with the architrave of the door itself. If what you are looking for is to cover the walls, the wall cladding panels can also be combined with the rest of the elements.

It is in and elegant to combine white with a black frame and architraves. In European homes the combination of black and white lacquers is in increasing demand. For a classic style, with a "British" touch, use doors with three or four panels, with flat or stepped architraves. The high gloss and matt finish combinations will help

you create an even more exclusive environment.
