## Interview

# SERVICE 10

## Rapid Response delivery

**MIGUEL SÁNCHEZ**

Southern Spain Responsible Agent. 30 years of experience

¿Miguel qué es el Servicio 10 para tí?

El servicio es uno de los pilares básicos que más valora un cliente, por encima incluso del precio. Es todo aquello que buscamos para satisfacer lo que el cliente nos pide, desde prepararnos para poder resolver cualquier tipo de duda hasta estar disponible en todo momento del año. Hoy por ejemplo, nos valoran muchísimo el stock de 50 modelos con casi 20.000 puertas de entrega inmediata, además del stock de nuestros distribuidores en cualquier punto de España. Por supuesto siempre con nuestro servicio de vehículos propios sin agencias ni riesgos de daños en el transporte.

¿Qué crees que hacemos diferente en Sanrafael?

Las diferencias son varias y muy importantes (para detallarlas necesitaría más espacio). En primer lugar, fabricamos todo en casa y por ello, nos hace mantener unos estándares de calidad muy uniformes. No es lo mismo servir puertas y luego cercos y molduras con acabados diferentes.

Otro de los pilares diferenciadores es el proceso de fabricación y acabados, hoy en día utilizamos para los recubrimientos de chapa cola PUR que es lo más avanzado en colas y hace que aunque se sumerja en agua o incluso se someta a calor, no se despegue el acabado.

En segundo lugar, resaltar que nuestros distribuidores saben que Puertas Sanrafael es quizás, la empresa del sector con el mayor abanico de posibilidades tanto en estándar como en puertas técnicas. Somos muy versátiles en nuestra fabricación, ya que ofrecemos personalizar las puertas con multitud de chapas de diferentes maderas, lacados, así como tintes y diferentes medidas. Además, todo ello con certificación de calidad tanto en puertas Resistentes al fuego, como Acústicas, incluso térmicas...

¿Qué valoran nuestros distribuidores oficiales?

Principalmente, el haber sabido aguantar y adaptarse a la gran crisis que de golpe, afectó al sector con motivo del paro en la construcción de viviendas. La búsqueda de soluciones por parte de Puertas Sanrafael ofreciendo el Servicio 10 y la creación de catálogos innovadores con multitud de modelos y soluciones, diferenciándose así a sus competidores, ha ofrecido a los distribuidores la ayuda para incrementar su presencia en la zona de influencia.

¿Qué recomendarías a una persona que quisiera comprar una puerta?

Es muy importante que valore la importancia de lo que representa un block de puerta, que siempre sepa que detrás de un producto hay una gran investigación en acabados, posibilidades de modelos y soluciones técnicas. Otra recomendación es que no se fijen en el modelo del vecino, amigo o familiar, que decida por él mismo a través de nuestros distribuidores. Comprobará que otros modelos se pueden adaptar a sus necesidades y aportarán a su vivienda algo diferente y acorde a su personalidad. Además exija al distribuidor el sello de Calidad Sanrafael, eso le aportará tranquilidad de que todo el proceso de fabricación y acabado se ha realizado en nuestra empresa, y que su compra tiene garantías a largo plazo.

Gracias! ;)

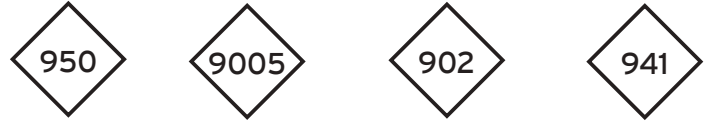

**¡Recuerda!**  
Comprueba este sello en  
cada puerta SANRAFAEL

### LACADOS

ECO

Los lacados **SANRAFAEL** emplean lacas ecológicas de la más alta calidad que evitan los problemas como la falta de adherencia, el efecto grumoso y el amarilleamiento que aparece con el paso del tiempo.

# MINIMAL

COLLECTION

modernity · integration · simplicity · natural

## Simply natural

Minimize the elements,  
Condense the decoration into a few objects and build an  
environment inside our home.

Faced with synthetic products, of short duration and  
diversification, it incorporates doors and complements made in its  
own natural wood as unique pieces with greater guarantee of  
products and enrichment of your home.

Plain and simple designs, where the naturalness of the  
wood shines.  
Less is more.

DESIGN: SANRAFAEL

RANGE OF DOORS: 17 MODELS / FINISH TECHNICAL SOLUTIONS: 29  
NATURAL WOODS / 12 WOODS FURNITURE FURNITURE: FOLDING  
CABINETS, SLIDING ROOMS, DRESSING ROOMS, DECORATIVE PAPER  
MIRRORS: 54 DESIGNS / 4 FINISHES  
HANDLES: 68 MODELS / 8 FINISHES

INTERESTING DETAILS:

Solid door structures with greater anti-humidity guarantees, adaptation to the opening and easy installation. Bio varnishes, derived from vegetable substances, with superior hardness, greater anti-yellowing power and greater silkiness to the touch. Availability according to design and finish up to 3 meters.

RECOMMENDATION:

Trend in Walnut and Oak. New finishes in Angora, Canela, Reconstituted Decapé Oak and Anthracite.

For closed spaces ... or open offices  
**Or at home create open spaces without building work, with**  
 external sliding doors with concealed hardware.

Make an open space with joists separating rooms with the same  
 finish as the door or furniture. You will get more functionality and  
 light in your home or work space.

04 Walnut

05 Model L62 Walnut Rustic open grain. Handle Medium Satin Chrome.

## Concealed hinge

Thanks to our concealed hinges you will obtain an aesthetically clean door. Use concealed hinges to achieve a visual clean-up effect.

## Magnetic latch

It includes a magnetic closure "magnetic latch" to eliminate the classic click when closing the door. In addition to getting a better seal.

# Choice + Comfort

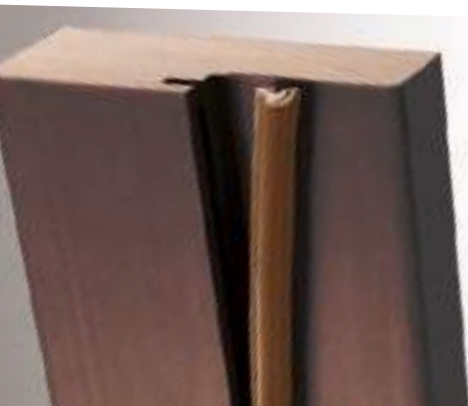

Simple can be very beautiful. Incorporating panels and doors to achieve a clean and minimalist effect is not trivial. Get this effect using our flush with wall system that unites both elements at the same level.

## Drop seal

Incorporates a lower drop seal to prevent the passage of dust and noise in spaces.

## Rubber seal

Thanks to a rubber gasket "sealing" the door with the frame is great and avoids the noise of unpleasant "slamming".

Choose the finish in high gloss to turn your models into exclusive pieces, incorporating trends in dark woods such as ebony, ash, linen, walnut and even lacquered.

## Advantages of a door set

Speaking of door set means that we supply all the necessary elements for installation ready to include on site, door leaf machined with four hinges with the frame installed, the latch and hinges on the door and the machining required to install the handle. It also includes architraves for both sides. It is the easiest way since it is all included and you only need the installer.

- All assembled to measure of each opening.
- Quick installation without dust in your home.
- Greater uniformity of shades, varnished, lacquered between doors, frames and moldings.
- Guarantee of door and accessories in all its manufacturing processes and finishes.
- Hardware guaranteed with greater anti-oxidation protection.

### NEW!

EXTRA OPTION: EASYBLOCK  
 Indicated for an extendable block. Improves the aesthetics of the union between architrave.  
 Facilitate the time of the

installation. Reduce dirt in the installation by eliminating cutting of materials in the home.

# THE WOOD

NATURAL WOOD IN YOUR HOME

Wood is a fashionable material. All variants are in demand, light, dark, grained, uniform, with an open grain or silky texture. It is a material aimed at the senses that contrasts perfectly with lacquer surfaces, glass or metal, always providing warmth and naturalness.

We use top quality walnut to help create elegant, balanced and quality atmospheres.

Not in vain  
It is one of the most resistant woods over time, which makes it considered one of the most valuable types of wood that exist today.

# K15

Dressing a space with paneled walls according to a floor-to-ceiling doors causes a more spacious feel. Did you imagine that a door of 2.80 meters \* could give a feeling of this much space, so extraordinary in a room?

Beyond aesthetics, Sanrafael provides functionality to the door with extra acoustic and thermal insulation with the use of a guillotine and perimeter rubber gasket.

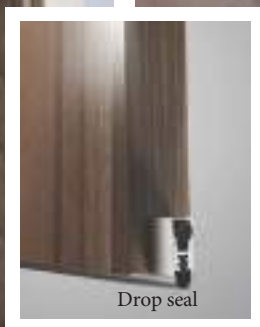

02. Walnut paneling.

## Hidden comfort

### Insulators

The insulating rubber gasket installed in the frame, together with the lower drop seal of the door, achieves a tightness that reduces temperature losses and isolates the noise.

### comfort

The magnetic latch is a design element that facilitates closing and reduces noise when closing the door.

The combination of Walnut and Graphite is in top Trendy. Use the graphite soft handle to be up to date.

\* Sanrafael doors are not responsible for the possible warpage of doors higher than 2300 mm.
